

PLEAT+PLUS® BOTTOM-LOAD FILTERS - SEAL-TITE II®

5.182" Diameter
0.50" Pleat Height

FEATURES

- Perfect retrofit for Fuller, Torit® TJ/PJ, European & Mikropul
- Patented Super Bead™ sealing design for virtually leak-proof seal.
- Patented intrical retainer clamp for no-miss installations.
- Adhesive & mechanical construction.
- Positive sonic welded seaming.
- Operating temperatures up to 425°F.
- Wide-spaced and shallow pleat design.
- Custom designs for your particular application.

BENEFITS

- Easiest bottom load filter installation available on the market today!
- High throughput capacity.
- Higher operating capacities to 99.99%.
- Longer life by a factor of two or more.
- Lower element operating pressure drop.
- Elimination of inlet abrasion problems associated with bags.
- Reduced downtime and maintenance cost.
- Optimized collector due to higher CFM throughput.
- Reduced product retention due to surface filtration.
- Prolonged filter life due to washable filter designs.
